

**EARTH-FRIENDLY FERTILIZERS RECOMMENDED FOR  
WATER QUALITY PROTECTION, SOUTHEAST MICHIGAN**

Recommended by the Healthy Lawns and Gardens Technical Advisory Committee

2009

**Criteria for designation as an earth-friendly fertilizer:**

**Low-phosphorus or no-phosphorus:**

- Ratio of nitrogen-to-phosphate is 5:1 or greater

**Slow-release nitrogen:**

- Natural organic fertilizer; or
- Synthetic fertilizer with 50% or more W.I.N. or controlled-release component

**Free of all pesticides (including herbicides); no weed-and-feed.**
